

First Announcement

Workshop on

Advanced Multiphoton and Fluorescence Lifetime Imaging Techniques

St. Ingbert, Germany, June 13 to 15, 2007

Topics:

- Advanced multiphoton imaging
- In-vivo Multiphoton tomography of human skin
- Fluorescence lifetime imaging (FLIM)
- Multi-wavelength fluorescence lifetime imaging
- Fluorescence resonance energy transfer (FRET)
- Live cell imaging
- Autofluorescence imaging of cells and tissue
- Imaging of local environment parameters
- Diffusion phenomena, combination of FCS and FLIM
- Optoacoustical microscopy

Organized by

Fraunhofer Institut für Biomedizinische
Technik
